**Re: Termination by Olympusat, Inc. of the Distribution of the Network Altavision**

Dear Rich:

Pursuant to the agreement between Olympusat, Inc. (“Olympusat”) and National Cable Television Cooperative, Inc. (“Affiliate”) effective the 19<sup>th</sup> day of April 2017, (“Agreement”), we are hereby notifying you that Olympusat will terminate its distribution of the network “**ALTAVISION**” to all of its affiliates effective as of April 14, 2019 at noon ET (“Termination Effective Date”). As of the Termination Effective Date, Olympusat shall have no further obligations under the Agreement with respect to Altavision.

Olympusat will replace Altavision with **Canal 44 de Juárez**. Canal 44 de Juárez features the leading news and entertainment programming from Juárez, Mexico. Canal 44 de Juárez will go into the same satellite transponder location as Altavision. Your systems that elect to carry Canal 44 de Juárez in place of Altavision will need to update the programming guide to reflect the correct guide data/source id and make the required changes. Canal 44 de Juárez is already set forth in the Agreement so no amendment is needed. Should your members elect to launch Canal 44 de Juárez in Altavision’s place, I would ask that you please send an email to [colleen@olympusat.com](mailto:colleen@olympusat.com) so that we can update our records. Please share this notice with your members so they are aware of the change. We have contact information for some of your members receiving Altavision, but not all.

For those systems currently receiving Altavision from Olympusat, the switch to Canal 44 de Juárez will be seamless, and no action will be required. However, if your engineers have any questions, we request that your systems contact Eric Bressler at (561) 472-2867.

If you have any questions regarding this notice, please contact me directly at (631)471-5846.

Regards,

  
Colleen E. Glynn
