Re: COMMERCIAL-FREE NOTIFICATION – INVESTIGATION DISCOVERY FILM

Dear Judy:

Investigation Discovery will be airing a special film titled **IN MEMORIAM** next month. In the United States, there is an active shooter incident every 12 days. **IN MEMORIAM** examines this reality from a new perspective as wounded survivors, grieving relatives, and heroes from three recent massacres relive the moment their lives changed forever. The film moves beyond the polarized gun control debate to examine the permanent emotional scars mass shootings create. We hear in detail from survivors and first responders of the horrific attacks at the Las Vegas Route 91 Harvest music festival, the Sutherland Springs Baptist Church in Texas, and the Marjory Stoneman Douglas High School in Parkland, Florida.

IN MEMORIAM will air on Investigation Discovery on Saturday, February 8, 2020 from 9:00-10:30PM ET. Due to the unusual significance of the program, **IN MEMORIAM** will be airing commercial-free.

We greatly value your partnership and our ability to bring important specials like these to your customers. On behalf of everyone at Discovery, thank you for your continued support.

Sincere regards,
Kelly Kane
Senior Vice President, Partner Marketing & National Accounts
